

# Secret Gardens CU

~Natural Portraits from Foraged Finds~

Cris Hughes, of Secret Gardens CU, preserves and composes each flower in her 3D botanical collages.

Let Cris transform your flowers into an inspired, custom piece, capturing the memories of your special day for years to come.

**How it Works:** Schedule a free consultation with Cris to discuss your wedding flower plans as well as your size and style preferences for your art piece. After your wedding, Cris will dry your flowers with her natural process that preserves the shape and vibrant colors of your flowers, using them to create a unique piece for you.

**Pricing and Sizing:** Each piece is a 3D rendering of your dried flowers, and the price includes a shadow box of your choosing. Cris has a variety of size options from 5" x 7" to 16" x 20". Prices vary depending on size and complexity of the piece, ranging from \$65 to \$350.

If you have further questions check out Secret Gardens CU's FAQs, or contact Cris directly ([secretgardenscu@gmail.com](mailto:secretgardenscu@gmail.com)).
